MCT

Do you have willing hands?

MCT organizes teams to construct and repair facilities for evangelical ministries in the United States and around the world. We are comprised of willing hands both skilled and unskilled alike. We partner in construction with ministries that spread the gospel of Jesus Christ.

Through this ministry we have the opportunity to share the Gospel, build up the church with encouragement, and walk alongside the body of Christ both on the team and with those we work with.

CAMP BATO

Cebu Island, Philippines

We are heading back to Camp Bato, February 6 - 25, 2019. We have a team of six as of this newsletter printing. Last year as we worked on the last two cabins, we were watching a contractor building the new chapel and dining hall. At that time they were setting shoring for the second floor. While we were there they finished forming the beams and tying the rebar for those beams. After we left they finished the deck forming and rebar, then brought in the pump trucks to pour the chapel deck. Since that time they fin-

steel louvers. Our plan is for the team to bring about \$10,500 for materials to bring the chapel up to safe permanent use, but we cannot do this on our own; we need your help. We have been in a partnership with the Evangelical Free Church of the Philippines on this project

considering helping by praying, giving, and even going? We do have space for two more on this trip, so let us know if you can join us. Thank you all for helping to bring this project to completion.

and it is truly their project. As a body they have been moving this forward even before we started helping. The goal of this year is to have the next step of this project done for their National Conference in March. Would you please
